SPRING BULLETIN 1941

AS USUAL, our Gladiolus bulbs are guaranteed clean, healthy and true to name; anything proving otherwise will be replaced. However, the results you will obtain are so entirely up to you that we cannot hold ourselves responsible for same. Carrying charges prepaid on all orders amounting to $1.00 or over. Please send cash with order. Orders accepted subject to stock unsold.

It has always been our custom to fill all orders generously. We always give extra count, and on orders for named kinds, bulbs of other kinds are always added. We shall be glad to list you among our customers.

Visitors are welcome at all times, but it is our custom to transact no business on Sunday.

Let us give you a quotation on larger orders; also on smaller sizes in quantities not offered in the list. Special quotations net.

THRIPS

Thrips can be controlled in the garden by spraying with any of the good sprays on the market, or by dusting. We had complete control, last year, by dusting with undiluted arsenate of calcium. If a dust is used, it should be applied either late in the evening or early in the morning.

We keep a little naphthalene among the bulbs at all times, while in storage.

Hardy Chrysanthemums

If you have not tried any of the newer types of garden Mums, we would like to say that you have a treat in store waiting for you. The new ones bring new types, new colors and increased hardiness to your gardens. No flower can take the place of Chrysanthemums in the fall when they supply great armfuls of fragrant, long-lasting blooms. The length of blooming season has also been increased, so that you may have flowers from early September till frost. May we suggest that you plant some this year.
